

Fever

Toots and The Maytals

She give me fever, fever
Oh from that night when I held her in my arms
I forgot imagination and it paralyzed my brains
She give me fever, fever
It was 2 long years, yeah 2 long years ago
Since I held her in my arms and I caught this fever
She give me fever, fever
Oh from that night when I held her in my arms
I forgot imagination and it paralyzed my brains
She give me fever, fever
Listen to me Raleigh (Toots)
Listen to me Jerry (Toots)
Please don't come to close or you will catch this fever
She give me fever, fever
Oh from that night as I held in my arms
I forgot imagination and it paralyzed my brains
She give me fever, fever
