

## Take A Look In The Mirror

Toots and The Maytals

Listen

The first time I saw your face  
Was the first I met you, girl  
You told me you love me  
You told me you care  
Three months after I saw you there  
I whispered my name, so softly  
You should remember the first time we met

I take a look in the mirror  
And I couldn't see myself at all  
I saw someone else  
Just staring and looking at me  
I can't help myself  
While all those stares are on me  
I can't help myself  
While all those stares are on me

The second time I saw you there  
I could not believe the scene, yeah  
I've never been happy  
I've always been blue  
The first time I saw your face  
Was the first I met you, yeah now  
I've never been happy  
I've always been blue, Lord man

I take a look to the sea  
And I caught those row boats looking at me  
I can't help myself  
While all those stares are on me

I take a look in the mirror  
And I couldn't see myself at all  
I saw someone else  
Just staring and looking at me  
I can't help myself  
While all those stares are on me  
I can't help myself  
While all those stares are on me
