

Call You Back

Tops

Ain't it strange the way you know your first
Now that you're back in town, you want words
We're so far back into the past it hurts
Something to cool your thirst, it won't work

I don't wanna call you back
'Cause what would I do with that?
What good is holding onto lost tracks?
What wasn't meant to last

Turn the page the way we used to rage
Now that you're back in town, you want a stage
To lift you up and chase your thoughts away
Come on and cut the cake, it won't change

Way down before
What we're doing now
It was cool to be above with you
Not now
You got me feeling so blue

I don't wanna talk to you
I don't wanna tell the truth
What good is holding to all that?
What I was meant to lose
I don't wanna call you back

I don't wanna call you back
'Cause what would I do with that?
What good is holding onto lost tracks?
What wasn't meant to last
