

# Circle the Dark

Tops

Little thing  
I forget where the promise starts  
Singing like a country star  
Standing by your man and all

Sail away  
We can find a better way  
Without you I have no place to stay  
I'm just circling in the dark

Am I longing for something to remain  
When it's time to move on?  
New buildings are going up everyday  
Soon this place will be gone  
They take it all and they give it a glossy touch  
You like it so much  
They're chasing our dreams right into their hands

Little thing  
Tell me where the promise lies  
Were you gonna let me know?  
Were you even going to try?

Little thing  
You tell me that life's not fair  
When you gonna let me know  
You're the reason why?

Am I longing for something to remain  
When it's time to move on?  
New buildings are going up everyday  
Soon this place will be gone  
They take it all and they give it a glossy touch  
You like it so much  
They're chasing our dreams right into their hands

Ooh baby  
Don't let it die  
Ooh baby  
Don't let it die  
I know that you and I can make it alright  
Ooh baby

Ooh baby  
Don't let it die  
Ooh baby  
Don't let it die  
I know that you and I can make it alright  
Ooh baby

You and I can make it alright  
You and I can make it alright
