

## Cloudy Skies

Tops

I, I'm looking up at cloudy skies  
I look ahead and see my sorrow  
No choice but to live tomorrow  
Nothing else left to do  
I have no choice but to choose  
I have no choice

Looking up at cloudy skies  
I look ahead and see my sorrow  
You, you don't even see me  
I know you are not looking clearly  
I see them coming for you  
Tenderness, I'm sore  
This is exactly what my body's for  
With a sigh, heave  
I would be the first to hear you breathe  
Now there's just falling leaves

Get by the best I know  
Can't say goodbye to you and let her go  
Do you stay just to keep me warm?  
When we know the fire's gone

I, I'm looking up at cloudy skies  
I look ahead and see my sorrow  
No choice but to live tomorrow  
Nothing else left to do  
I have no choice but to choose  
I have no choice

When we know the fire's gone  
When we know the fire's gone  
Do you stay, just to keep me warm  
Do you stay just to keep me warm  
Stay just to keep me warm  
When we know the fire's gone  
Do you stay, just to keep me warm  
Stay just to keep me warm

I, I'm looking up at cloudy skies  
I look ahead and see my sorrow  
No choice but to live tomorrow  
Nothing else left to do  
I have no choice but to choose  
I have no choice but to choose  
Nothing else left to do  
I have no choice but to choose  
Looking up at cloudy skies
