

# Colder & Closer

Tops

Tripping out the bedroom  
Double-check the door is locked  
Someone out to get you  
Stranger living in your thoughts

What would you know?

Slip into nostalgia  
Sweat dripping down your neck  
Now you really want her  
All the lovers that you just forgot

What would you know?  
Oh, they all keep holding you close  
Colder and closer  
Oh, they all keep holding you close  
'Til it's over

Searching constellations  
Seeing if the stars align  
Signs are myths like nations  
Shapes drawn over crooked lines

What would you know?  
Oh, they all keep holding you close  
Colder and closer  
Oh, they all keep holding you close  
'Til it's over  
Oh, they all keep holding you close  
Colder and closer  
Oh, they all keep holding you close  
'Til it's over

All the lovers that you left behind  
All the lovers  
Lovers that you left behind  
Keep holding you  
Keep holding you  
Keep holding you close

Closer  
Oh, they all keep holding you close  
'Til it's over  
Oh, they all keep holding you close  
Closer  
Oh, they all keep holding you close  
'Til it's over  
Oh, they all keep holding you close
