

It's all over now
I was hypnotized by why we could not kill the light
Used to think that I was in the right
Now I know I'm wrong
You don't know what you want

Is it time to start again?
I know I'll never win
I just want one more time
Can't say goodbye
Walking down the line, further

I just can't let it go
I just can't let it die

Is it time to go on?
Long before these empty streets wound into the cold dawn
Used to get along
Used to matter, now it's gone
Become the sun alone and withdrawn
You don't know what you want

Is it time to start again?
I know I'll never win
I just want one more time
I can't say goodbye
Walking down the line, further

I just can't let it go
I just can't let it die

Was I meant to stay?
Silent tears that cry, there's nothing left to say
Used to think that I was in the way
Now I know my place
Getting further away
Don't remember my name

Is it time to start again?
I know I'll never win
I just want one more time
I can't say goodbye
Walking down the line, further

I just can't let it go
I just can't let it die

I just want one more song
I just want one more night
I just can't let it go
I just can't let it die
