

## Your Ride

Tops

You've seen it change  
No longer the same  
And you know your ride  
You don't need it anymore

Need to watch the sky  
Making your arms sway  
Forgot how much I needed it, honey  
Once I found a place to stay  
When you're old, will you force the door closed?  
Did the light get in your way?

You could buy anything  
Buy a pretty picture, and then  
Put it in a nice frame  
But you know you won't need it anymore

Need to watch the time  
Making love all day  
Forgot how much we mean to each other  
Once we went our separate ways  
Need to watch your mouth  
Watch the words you say  
When you're old, will you force the door closed?  
Did the light get in your way?

Need to watch the sky  
Making love all day  
Need to watch the time  
Making love all day
