

# I Don't Wanna Fall In Love

Tor Miller

Why you want to get involved?  
I'm still fucked up from my last fling  
Now I got problems that I may never solve  
So I've sworn myself off the whole thing

I tried to fight it  
I was so blindsided by you

Here we go again  
Diving right back in  
I don't want to fall in love  
Broke my promises  
Against my common sense  
I don't want to fall in love

Every time I let it start  
I end up with a broken heart  
I don't want to fall in love  
Now I'm tripping on my face  
Falling right back into place  
I don't want to fall in love again

I'm scared to drop the ball  
When you give your all to me  
I've got history  
Makes it hard to see  
A future for you and me

I tried to fight it  
I was so blindsided by you

Here we go again  
Diving right back in  
I don't want to fall in love  
Broke my promises  
Against my common sense  
I don't want to fall in love

Every time I let it start  
I end up with a broken heart  
I don't want to fall in love  
Now I'm tripping on my face  
Falling right back into place  
I don't want to fall in love again

Here we go again  
Diving right back in  
I don't want to fall in love  
Broke my promises  
Against my common sense  
I don't want to fall in love

Every time I let it start  
I end up with a broken heart  
I don't want to fall in love  
Now I'm tripping on my face  
Falling right back into place

I don't want to fall in love again
