

## Washington Square Park

Tor Miller

I first saw you on Great Jones  
You was singing out loud with your headphones on  
Well Lady Stardust is my favorite song  
I didn't even care you got every word wrong

I can't find you in the crowd  
In my head I see you over and over again  
I stood outside the cinema  
You set me up in flames

My heart is still stuck in Washington Square Park  
Waiting in the neon baby  
I just wanna know where you are  
And why it feels like I'm going crazy  
Now the night always seem so dark  
In Washington Square Park

Above Skyscrapers and under every stone  
Are you hiding somewhere in the midnight shadows  
Said post no bills but I put up signs  
Stood on the corner handing out flyers  
No I won't stop until you're mine

My heart still stuck in Washington Square Park  
Waiting in the neon baby  
I just wanna know where you are  
And why it feels like I'm going crazy  
So this is where the vampires go  
I guess it's a city I just didn't know  
Now the night always seem so dark  
In Washington Square Park

My heart still stuck in Washington Square Park  
Waiting in the neon baby  
I just wanna know where you are  
And why it feels like I'm going crazy  
So this is where the vampires go  
I guess it's a city I just didn't know  
Now the night always seem so dark  
In Washington Square Park  
In Washington Square Park
