

## Everbright

Tora Tora

My wish in may with all my might  
I can stay forever bright  
To open one heart, touch one soul  
Ignite one thought before I grow old  
Whoa, whoa  
If you're lonely it's by design  
Always here anytime  
All we want to do celebrate  
Live my life with no restraint  
If we don't see eye to eye  
I wish you all a beautiful life shine on

Everbright

This fleeting life is a leap of faith  
Unknown soldiers deny the praise  
Marching slowly silent parade  
Trying not to stir the flames  
Whoa, whoa  
If you're lonely it's by design  
Always here anytime  
All we want to do celebrate  
Live our lives with no restraint  
If we can't see eye to eye  
I wish you all a beautiful life shine on

Everbright

A new dawn rising with hope-filled eyes  
Another chance encounter finds  
Sun-blinded spirits touching lives  
Champions that are changing times  
Whoa, whoa  
If you're lonely it's by design  
Always here anytime  
All we want to do celebrate  
Live our lives with no restraint  
If we can't see eye to eye  
I wish you all a beautiful life shine on
