Fire

Torche

Step back, your mission is a crime
Maybe you'll know what's mine
Healthy phase and no one's harmed, who will believe the wrong?

Make your wishes safe with peace
Tongue-tie the ungracious deeds
Gaze the little heart breaker, who'd have thought it's me?

Fire, fire
Your thieving spark can't stop this fire

Introduce you to my mind
Too far ahead and I'll paint the beauty mark with grime
It's safe right here inside

And now you'll be leaving, too proud to ever give in
Crazy bitter polished pride will never get the time
Fire safe right here inside

Fire, fire
Your thieving spark can't stop this fire

Fire, fire
Your thieving spark can't stop this fire
