

Reach Your Heart

Tori Kelly

I cant really tell what you're feeling
All I know is I would really like to be with you
If you could only see we could be like a melody carried by the
wind and sung by the trees

Oh oh, Baby tell me do you love me
Oh oh, baby give me a sign

You and me we fit together perfectly
Baby don't you think so
You should let me know

If I could just reach your heart
Then I could know what you're thinking
If I could just reach your heart
Then I could know what you're feeling

Your heart
I'm gonna reach for it
And when I get it I will never let it go
Cause you got that special thing
that makes me wanna sing
I wish I could know how you feel about me

If I could just reach your heart
Then I could know what you're thinking
If I could just reach your heart
Then I could know what you're feeling
If I could just reach your heart
I could know what you're thinking
If I could just reach your heart
Then I could know what you're feeling

Do you have any feelings for me
Or am I just wasting my time
So many thoughts running through my brain
This would all be so much easier...

If I could just reach your heart
Then I could know what you're thinking
If I could just reach your heart
Then I could know what you're feeling

Your heart Your heart Your heart
I'm gonna reach out for
