

Baby Drive It Down

Toro y Moi

Baby drive it down for me
Let me know you gon' do it
Baby drive it down for me
Let me see you go
Six hours more
Through the CAFO
I don't need the beef
We don't need to go that low
I don't need to speak
You know that I'm bad with the words
God damned, how you just heard
Head up in the sky with the birds
I like the way you do it right there
The way you flip it back with the stares

You know I want you now
You know I want you right now now
You know I want you now
You know I want you right now now
You know I want you now
You know I want you right now now
You know I want you now
You know I want you right now now
You know I want you now
You know I want you right now now now

Baby drive it down for me
Let me know you gon' do it
Baby drive it down for me
Let me see you go

Baby drive it down for me
Let me know you gon' do it
Baby drive it down for me

I hit up your girlfriend
I hit up your girlfriend
I hit up your girlfriend

You know I want you now
You know I want you right now now
You know I want you now
You know I want you right now now
You know I want you now
You know I want you right now now
You know I want you now
You know I want you right now now

Baby drive it down for me
Let me know you gon' do it
Baby drive it down for me
Let me see you go

Baby drive it down for me
Let me know you gon' do it
Baby drive it down for me
Let me see you go

Baby drive it down for me
Let me know you' gon' do it
Baby drive it down for me
Let me see you
