

Movements

Toro y Moi

Tie down my hands and run away
so you won't be so afraid
of what I'm gonna try to do

It found my pulse in the mist
I'm gonna get you back from this
You'll see
You'll see

Adding up all these left
And bring them back to where they were
So bad
So bad

I'm better off than what it looks
To be, to be, to be
stationary

Follow my path and trust my words
Don't stay too long while I'm with you
While I'm with you

Black forest into the night
Take you into the other side of endless movements
Of endless movements

Check my peaceful eyes
Check if I'm alright
Check my peaceful eyes
Check if I'm alright

Check Check Check Check
Check if I'm alright

Now full of cotton and drowns
Me into to something that she'd love
That she'd love
ohh
I'm shaking in my sweet head
I am too into the street

Check my peaceful eyes
Check if I'm alright
Check my peaceful eyes
Check if I'm alright

Check Check Check Check
Check Check Check Check
