

New Beat

Toro y Moi

Don't keep it all in your head,
what we had was off.
It's best that we forget
and overlook it all.

But even now when they fall into place
I think about you then

I know I'd forget
If I was alone
Make sure I can miss, love, and hold on

Got left surrounded
By my old things
Thought I had moved on.
Tried to make ends meet
But picked up a new beat
And so I laid out

But even now when they fall into place
I think about 'em then

I know I'd forget
If I was alone
Make sure I can miss, love, and hold on
Make sure I can miss, love, and hold on
Make sure I can miss, love, and hold on

Don't forget.....
