

## Off Road

Toro y Moi

We're going off road  
Everybody's been through it  
Everybody knows  
Everybody's sick of it  
Everybody's sick of it  
Been through it

Trapped in Pasadena  
Stuck behind a Prius  
Black tinted Suburban  
Driver took a turn and  
Next thing I know  
We're going off road  
Next thing I know  
We're going off road

Online she's a model  
Real life she's a handful of rosé and moscato  
Living in my bedroom  
Got me flying in my room  
Now I gotta find my bitch

I know you get bad days (Bad days) with diamonds on your (On your) wrist  
Time is on your (On your) side, check it off your (Off your) list (List)  
You been doin' a whole lot (You been doin' a whole lot)  
You been doin' a whole lot (You been doin' a whole lot)  
You been doin' a whole lot

We're going off road  
Everybody's been through it  
Everybody knows  
Everybody's sick of it  
Everybody's sick of it  
Been through it

She's in Colorado  
While he stays home and wonders  
What happened to his love  
And why she's in the mountains  
Got me flyin'  
We're going off road  
Next thing I know  
We're going off road
