

Studies

Toro y Moi

Ah, I am used
You really need me there
I can't be so naive about you
See, lied just to watch you fake
Could be the counterparts
Never liked to study much, but you
You have the will
Yes you, yes you do
Yes you, yeah you are
Yes you should because you are
Yes you, yes you do
Yes you, yeah you are
Yes you should because you are

Why is she still sleeping?
I wish she'd explain
The family's busy stressin'
about where you are

I guess it's just a habit
To have sense that things are fragile
It's the warmth inside your bag
If I hadn't spent the night with you
I don't think we'll ever make this through

Ah, I will...

Ah, I am used
You really need me there
I can't be so naive about you
See, lied just to watch you fake
Could be the counterparts
Never liked to study much, but you
You have the will
Yes you, yeah you do
Yes you, yeah you are
Yes you should because you are
Yes you, yeah you do
Yes you, yeah you are
Yes you should because you are

Hope you're not awake
Biting at your nails
Worried bout the class
That you think you failed
