

## Are You Sleepwalking?

Torres

Baby, are you sleepwalking?  
Let's get to the bottom of this  
Is it you who's driving  
Or is there someone else behind the wheel?

Some things have gone missing  
I promise we'll find them again  
Did one of us do this?  
Your computer's disappeared

I promise your mind is intact  
I know that it's hard keeping track  
If you're seeing things, I'm seeing them too  
I'm gonna chase the answers with you  
I'm gonna chase the answers with you

Baby, you might be sleepwalking  
The thought of it's pretty surreal  
Where could that machine be hiding?  
Checked the freezer, no deal

I promise your mind is intact  
I know that it's hard keeping track  
If you're seeing things, I'm seeing them too  
I'm gonna chase the answers with you  
I'm gonna chase the answers with you  
I'm gonna chase the answers with you  
I'm gonna chase the answers with you

For all we know it evaporated  
Remember when we found that marble in your food?  
Sometimes things are just weird  
Doesn't mean screws are loose

I promise your mind is intact  
I know that it's hard keeping track  
If you're seeing things, I'm seeing them too  
I'm gonna chase the answers with you  
I'm gonna chase the answers with you  
I'm gonna chase the answers with you  
I'm gonna chase the answers with you
