

Hug From a Dinosaur

Torres

Lord, girl, you're the best of all possible worlds
Before my wild happiness who was I if not yours?
Lord, girl, you're the best of all possible worlds
Before my wild happiness who was I if not yours?

My baby ran a blazin' forty laps around the sun
She is hungry she is thirsty but she don't wanna stop for lunch

No time to spare so I'm gonna bring her some
No time to spare so I'm gonna bring her some

Clock is sinking into quicksand disappearing fast
No bother, where we're headed we won't need that
What comprises all this joy I feel and where was it before?
Ancient and eternal and surreal as a hug from a dinosaur

My baby ran a blazin' forty laps around the sun
She is hungry she is thirsty but she don't wanna stop for lunch

No time to spare so I'm gonna bring her some
No time to spare so I'm gonna bring her some

I just had a memory of the future
Time and money aren't real and empathy is God
Your superconscious already knew it
Truth is ancient and eternal and surreal as a hug from a dinosaur
Hug from a dinosaur

My baby ran a blazin' forty laps around the sun
She is hungry she is thirsty but she don't wanna stop for lunch

No time to spare so I'm gonna bring her some (No time to spare
I'm gonna bring her some)
No time to spare so I'm gonna bring her some (No time to spare
I'm gonna bring her some)
No time to spare so I'm gonna bring her some (No time to spare
I'm gonna bring her some)
No time to spare so I'm gonna bring her some (No time)
