

## Keep the Devil Out

Torres

Stir crazy and bored  
Expiring behind doors  
What's your next move?  
You've only got time to lose  
I for one am gonna dig us out of here  
I have got all the hope I need  
To keep the devil out my ear

If you only had  
One song left to sing  
What would it be?  
Go on and sing it to me  
I for one am gonna dig us out of here  
I have got all the hope I need  
To keep the devil out my ear

Everybody wants to go to heaven  
But nobody wants to die to get there  
Everybody wants to go to heaven  
But nobody wants to die to get there  
Everybody wants to go to heaven  
But nobody wants to die to get there  
Everybody wants to go to heaven  
But nobody wants to die to get there

Get a load of this  
I had a vision  
Tomorrow we rise  
From our deep-sea slumber  
Make ourselves a new world order  
I have got all the hope I need  
To keep the devil out of here

Everybody wants to go to heaven  
But nobody wants to die to get there  
Everybody wants to go to heaven  
But nobody wants to die to get there  
Everybody wants to go to heaven  
But nobody wants to die to get there  
Everybody wants to go to heaven  
But nobody wants to die to get there
