

# Don't Cry

Tors

Let it in, let it out  
Show me love, shoot me down  
Well you were just waiting, for me to get faithless  
But I worship the ground

Everytime you tell me not to stay  
You know I wouldn't have it any other way

Don't cry everything's fine  
You've been lost but I won't let go  
And don't cry everything's fine  
You've been lost but I won't let go tonight  
You've been lost but I won't let go tonight  
You've been lost but I won't let go

Seven years on the road  
Settle down, make a home  
Well maybe we've made it  
The circles we're chasing  
Disappear in the snow

Everytime you tell me not to stay  
You know I wouldn't have it any other way

Don't cry everything's fine  
You've been lost but I won't let go  
And don't cry everything's fine  
You've been lost but I won't let go tonight  
You've been lost but I won't let go tonight  
You've been lost but I won't let go

I don't know how to run  
I don't know where to leave you behind  
You're the only one, you're the only one like me  
But I needed to know  
Heading back with the sun in our eyes  
You're the only one, you're the only one I see

Don't cry everything's fine  
You've been lost but I won't let go  
And don't cry everything's fine  
You've been lost but I won't let go tonight  
You've been lost but I won't let go tonight  
You've been lost but I won't let go
