

Happy Enough

Tors

If I die before I wake
Would they say he's too young
He was someone?

Or would they be unfazed?
They all thought this day would come
He's not 21

Spent my life, falling apart
Halfway blind, crashing the car
Setting fires hiding my scars
From view

I wish I was
Happy in life
Happy in love
Happy inside
Happy enough
Hope I never sing it again

But I'm
Happier high
Happier drunk
Dying that I'm
Happier numb
Maybe I just needed a friend

And I can't talk to my friends
We're sinking in the same boat
We dig the same holes

But we all play pretend
Like we got these halos
Fallen angels

Spent my life, falling apart
Halfway blind, crashing the car
Setting fires hiding my scars
From view

I wish I was
Happy in life
Happy in love
Happy inside
Happy enough
Hope I never sing it again

But I'm
Happier high
Happier drunk
Dying that I'm
Happier numb
Maybe I just needed a friend

Ooooooh
Ooooooh
Ooooooh

Let me be
Happy in life
Happy in love
Happy inside
Happy enough
Hope I never sing it again

But I'm
Happier high
Happier drunk
Dying that I'm
Happier numb
Everybody sing it again

I wish I was
Happy in life
Happy in love
Happy inside
Happy enough
Hope I never sing it again

But I'm
Happier high
Happier drunk
Dying that I'm
Happier numb
Maybe I just needed a friend
Maybe I just needed a friend
