

# Hold Me

Tors

Close, closer than before  
Trying to ignore  
People walking through your door  
Stand, standing right before  
Trying to ignore  
All the flowers on your drawer

Blaming myself for everything  
That you see now in your dreams  
Wishing that you were just back in my arms, my arms

So hold me, let me tell you not to fear  
It's gone, it's done, it's over

Closed book I read out loud  
Hope you'll hear somehow  
Bed time stories ending now

Blaming myself for everything  
That you see now in your dreams  
Wishing that you were just back in my arms, my arms

So hold me, let me tell you not to fear  
It's gone, it's done, it's over

The sounds and sights have disappeared  
I hope tonight that you'll be cleared  
And then you'll come and stay with me, I swear I'll care  
Hold tight tonight, I will never let go  
Hold tight tonight, I will never let go

So hold me, let me tell you not to fear  
It's gone, it's done, it's over

The sounds and sights have disappeared  
I hope tonight that you'll be cleared  
And then you'll come and stay with me, I swear I'll care  
Close...
