

How It Hurts

Tors

How am I supposed to be
When you're not in-front of me
I've been losing weight and sleep
Every day
I know that I cut right through
You know that you hurt me too
Why we do the things that we do
I can't say
Call me in the night just to hang up the phone
But we talk until our voices can't no more
You say you're gonna leave
But I feel you, hesitate

There's something in the way that it burns
Maybe we like how it hurts
Maybe we should set a little fire
A fire to see
Even if we live to regret
Smoking our eyes, out of breath
Maybe we just need a little fire
A fire to see

I love it when we talk talk all night
I love it when the tears fall from our eyes
I love it when we don't say goodbye
To the way that it burns

How do you suppose it will be
Twenty years from now, will we keep
Every little promise we made half asleep
You told me that you'd be there whenever I need
I said that I would hold you and I won't leave
I hope you understand that you still mean everything, to me

There's something in the way that it burns
Maybe we like how it hurts
Maybe we should set a little fire
A fire to see
Even if we live to regret
Smoke in our eyes, out of breath
Maybe we just need a little fire
A fire to see

I love it when we talk talk all night
I love it when the tears fall from our eyes
I love it when we don't say goodbye
To the way that it burns

This is us
You can call it what you want
When you've fallen into my arms
I will try my best to give you my mind, my body, my tongue, my heart

There's something in the way that it burns
Maybe we like how it hurts
Maybe we should set a little fire
A fire to see

Even if we live to regret
Smoke in our eyes, out of breath
Maybe we just need a little fire
A fire to see

I love it when we talk talk all night
I love it when the tears fall from our eyes
I love it when we don't say goodbye
To the way that it burns
