

# Sorry

Tors

We would always stay up late  
Drinking till' the morning came  
The only way we knew  
How to make it through  
Another kinda wasted day  
Couldn't wait to leave this place  
We say it all the time  
But you got left behind

I found my own way out  
I didn't think about  
How much everything would change

I know I left you there  
When you needed  
Someone to call a friend  
I was nowhere to help you find your way  
And all I want to say is  
Now that I'm back again  
You don't need me  
I know you won't forget  
I don't blame you  
I threw it all away  
And all I wanna say  
Is sorry

I didn't wanna let you down  
I wish that I could turn back now  
Change the way it went  
And tell you what it meant  
You don't wanna see my face  
Listen to a word I say  
I guess that's how it goes  
We live the lives we chose

I found my own way out  
I didn't think about  
How much everything would change

I know I left you there  
When you needed  
Someone to call a friend  
I was nowhere to help you find your way  
And all I want to say is  
Now that I'm back again  
You don't need me  
I know you won't forget  
I don't blame you  
I threw it all away  
And all I wanna say  
Is sorry  
Sorry
