

# Won't Remember

Tors

So hard to find you  
When you've wandered this far  
I hope that you're in there  
And I know that you are  
So good to see you  
When you light up the dark  
I could sit here forever  
But I know that you can't

You won't remember  
What I say  
You won't remember  
But that's okay

Hope in my heart  
Hope in my head  
You'll get better but you-  
Hope in my heart  
Hope in my head  
You'll get better but you won't  
You'll get better but you-

Under the silence  
When you don't have the words  
You look so much like him  
The man that you were  
Who do you speak to  
When you leave us behind?  
It hurts just to miss you  
When I'm there by your side

You won't remember  
What I say  
You won't remember  
But that's okay

Hope in my heart  
Hope in my head  
You'll get better but you-  
Hope in my heart  
Hope in my head  
You'll get better but you won't  
You'll get better but you won't

When I'm here with you alone  
Watching lights go off and on  
All I ever do is hope  
You'll get better but you won't  
You'll get better but you won't

Hope in my heart  
Hope in my head  
You'll get better but you-  
Hope in my heart  
Hope in my head  
You'll get better but you-  
Hope in my heart

Hope in my head  
You'll get better but you-  
Hope in my heart  
Hope in my head  
You'll get better but you won't  
You'll get better but you won't
