

## Abduction Was The Case

Torture Squad

Cold night, dark road  
Strange object starts to float  
Unknown force carrying me  
Lights in the sky, shadows I see

Dark figures, odd faces  
Eyes so bright, alien race  
Paralysed by the fear  
My scream no one hears

In the ship... nightmare  
Experiences, voices in my head  
Their purposes no one knows  
Mysterious unknown

Abduction was the case  
At the mercy of greys  
In my mind... I'm afraid!  
Strange needles touch me  
Excruciating reality
