

## Complete Control

Total Chaos

No time to be wasted  
Hangin' 'round with you  
I've got better things to shoot for  
And little time to do  
Can't you see I've got it  
With no help from you  
I've turned around, knocked you down  
and burned the bridge from you

I want control  
I've got to get control  
with no regrets, naturally  
I want complete control

Oh changes will be made  
To keep control for good  
I'll change the whole world  
And everything around you  
I don't need no help  
And nothing from you  
I'll get everything I want  
You know it will be true
