## **My Generation**

## **Total Chaos**

Our generation is raving mad
Your generation is fucking sad
Our generation is for the working class
Your generation is kicking ass
We're going to fight to free ourselves
From a system that can't relate
From a system that will not change
From a system that's fucking lame
From a system that's gone insane
Our generation is fucking pissed
Your generation won't be missed
Our generation is going to kick your ass
Your generation is part of the past
