

## Not Anymore

Total Chaos

Don't got no time left, I've lost my home  
Standing on the streets "man" I'm all alone  
No job - no girl, nothing of my own  
Looks like I've got no future, my life's gone

Well, I don't care - no not anymore  
My life's not fair - but I'll even the score

You can't take it - I can't take it  
I think I'm outta control  
You can't take it - I can't take it  
I think I'm gonna explode

I'm living on the edge, with no where to go  
Looks like I've got no plan, no not anymore  
I've got to get my life back, got to have control  
Looks like I've got no future, my life's blown

No life of my own, my future is gone  
Just wreckage from the past, this life will not last  
Ain't got no freedom, just keep on dreamin'  
Lost in a fading past, in a way it cannot last
