

Standin' Strong, Together

Total Touch

CHORUS

You're in my heart
so don't ever fear
I cross my fingers,
and you will be here
And when I'm not aware,
you will be by my side
Standin' strong, together!
here to make things right
Sometimes I wonder
what lies in store for me
Searching for harmony
and trying to find the golden key
We are walking slowly
batteries on way to go
Let's come together unconditionally
Yes, there is so much to do,
just show your purity
It would mean the world to all of us,
if everyone could sing

REPEAT CHORUS

Somebody tell me
what is humanity
The price of freedom is
too high to buy so easily
It is no wonder
we are going under
We can't go on
acting so selfishly
Trouble seems so far away
That ain't reality
We are all as one,
we have one voice
Let's find a better way
REPEAT CHORUS

We have one mission now:
to live in harmony
It's not impossible,
if we could all unite and sing
REPEAT CHORUS
