

## Bend

Toto

Out of the darkness  
A light appears  
Better angels fly

Moments of redemption  
Between you and I  
Over and over and again

We all just have to bend

So many hard lines  
Are flexible  
What would it give to take  
Only need a moment  
For it to snap and break  
Brother or lover or a friend

We all just need to bend

'Cause if it breaks  
We lose the power to learn from our mistakes  
But if it bends  
Then you and I can try to make amends  
As better friends

It's almost over  
We're older now  
Better angels stay

Searching for an answer  
And then it comes to me  
Over and over and again

We'll all just have to bend
