

Devil's Tower

Toto

Who'll tell the tale when words collide?
Where is intelligent design?

I live in fear and destitution
There's someone else in my reflection I don't recognize

I found the dream but I was blind
Now I'm looking for a second chance before I lose my mind
Climb the devil's tower one more time

And like a shot time rushes by
How many summers till I die?

Now I'm a man of resolution
No longer making all the same mistakes anymore

I found the dream but I was blind
Now I'm looking for a second chance before I lose my mind
Climb the devil's tower one more time
Now I'm looking for a second chance before I lose my mind

Now I'm a man of resolution
No longer making all the same mistakes anymore

I found the dream but I was blind
Now I'm looking for a second chance before I lose my mind
Climb the devil's tower one more time
Now I'm looking for a second chance before I lose my mind
I found the dream but I was blind
Climb the devil's tower one more time
