

Oh Why

Toto

You never told me you were going away
Oh why? Oh why?
You'll never hear the words I meant to say
Oh why?

You never should have acted like you care
You could have turned around and walk the other way

I never wanna hear you say goodbye to me
I never wanna hear you say goodbye
I never wanna hear you say goodbye, goodbye

You pull the heart by out of me
Oh why? Oh why?
My eyes were blind and you made me see
Oh why?

A love life guards to fall apart
Why did I take so long to catch on from the start?

I never wanna to hear you say goodbye to me
I never wanna to hear you say goodbye
Never wanna say goodbye
I never want to hear you say goodbye, goodbye

You never should have acted like you care
You could have turned around and walk the other way

I never wanna hear you say goodbye to me
I never wanna to hear you say goodbye
Never gonna say goodbye
I never want to hear you say goodbye to me
I never want to hear you say goodbye
(You say goodbye) I never want to hear you say goodbye to me
(Never told me why) I never want to hear you say goodbye
(Never got to tell you why) I never want to hear you say goodbye,
e, goodbye
