

Here & Now

Toulouse

I'm painfully self-aware
I bat an eyelash and a dragonfly somewhere
Catches a cold
Well I'm sorry, my friend
I live in my head and it gets lonely in here
But that's the way I'm wired

But it's a beautiful life
And I just want to get down
I just wanna get down
I just wanna get down
In the here and now

It's a beautiful life
And I just want to get down
I just wanna get down
I just wanna get down
In the here and now

To be human
To be alive
To live to die another day
Is it worth the weight?
I don't know
But it's a heavy price to pay
To be human
I just wanna get down
I just (I just) wanna get down
In the here and now

It's a beautiful life
Now
It's a beautiful life
Now (human)
It's a beautiful life (I just wanna get down)
Here and now (I just wanna get down)
It's a beautiful life (I just wanna get down. I, I. I just wanna get down)
It's a beautiful life (I just wanna get down.)
Here and now (I just wanna get down. I, I)

It's a beautiful life
And I just want to get down
I just wanna get down
I just wanna get down
In the here and now

It's a beautiful life
And I just want to get down
I just wanna get down
I just wanna get down
In the here and now

But things are complicated
It's the only way we know how
Only way we know how
To be human, human, human

But it's a beautiful life
And I just want to get down
I just wanna get down
I just wanna get down
In the here and now
