

Bad Time for a Good Time

Tove Styrke

Been looking all over for someone like you
Now that I've found him I go find you
Never been here before, I don't know what to do
Searching is over and now there's two of you

Not tomorrow, not today, not another time
No need to hang around

It's a bad time for a good time
That's why this love won't happen
It's a bad time, no, not a good time
All boys when I don't need 'em
It's a bad time for a good time
That's why this love won't happen
It's a bad time, no, not a good time
All boys when I don't need 'em

Look at all the good looking people around
They try to compete with what I already found
What to do my friend
You could have been the one but I will not pretend
Been looking all over for someone like you

No tomorrow, no today, not another time
No need to hang around

It's a bad time for a good time
That's why this love won't happen
It's a bad time, no, not a good time
All boys when I don't need 'em
It's a bad time for a good time
That's why this love won't happen
It's a bad time, no, not a good time
All boys when I don't need 'em

Not tomorrow, not today, not another time
No need to hang around
Not tomorrow, not today, not another time

Not tomorrow, not today, not another time
No need to stick around
Not tomorrow, not today, not another time

It's a bad time for a good time
That's why this love won't happen
It's a bad time, no, not a good time
All boys when I don't need 'em
It's a bad time for a good time
That's why this love won't happen
It's a bad time, no, not a good time
All boys when I don't need 'em
