

# Call My Name

Tove Styrke

Oh, when you call my name  
Oh, when you call my name  
I was a rebel even as a little girl  
I've been a loner ever since I can remember  
I taste my hair because it wouldn't be in curls  
I'm over-strengthened days and I shook these pretenders

Oh, when you call my name  
Oh, when you call my name  
Oh, when you call my name  
I'll be waiting on the border, baby  
Oh, when you call my name  
Oh, when you call my name  
I'll be two steps over the water, baby  
Oh, when you call my name

I got my vertigo from looking from above  
I found a loophole having not become a member  
I took the u-turn wasn't shaken kind of stirred  
And if you see that kid there's no need to defend her  
And even though I'm just a second from the blues  
Always remember when he start to flash my jaw-bone  
It's now or never cause a crook had read the news  
I'm walking on the water shining like a rhinestone

Oh, when you call my name  
Oh, when you call my name  
Oh, when you call my name  
I'll be waiting on the border, baby  
Oh, when you call my name  
Oh, when you call my name  
I'll be two steps over the water, baby  
Oh, when you call my name

I'll be waiting  
This ain't over  
I'll be close, close, close, close

Oh, when you call my name  
Oh, when you call my name  
Oh, when you call my name  
I'll be waiting on the border, baby  
Oh, when you call my name  
Oh, when you call my name  
I'll be two steps over the water, baby  
Oh, when you call my name
