

Who's Got News

Tove Styrke

Who's got news for who
Who are you to know how to behave
I got news for you
Do you know what it feels like when a heart is breaking
You call yourself a savior but nothing in your behavior is true
Nothing is true

You say you fix what is broken
Do you know what's broken?
You don't know what is broken
That's what'll break you

You can close what is open
Do you know what you're closing?
You the one that was chosen
But I'd never choose you
But I'd never choose you

Who's got news for who

Do you know what it feels like when a heart is breaking
You call yourself a savior but nothing in your behavior is true
Nothing is true
