

2 Da Moon

Towkio

Hey, ow, uh, ow, ow, ow, uh

Okay, they waitin' on me
And I came to party, so rock ya body
Yeah, rock ya body, don't stash no stagnant
Just grab somebody, don't need to panic
No need to panic, that shit don't stand and
We way too deep, you don't want no static
That shit don't add up, that's mathematics
I got this shit locked, no need to practice, like

Said, you just caught the vibe
Yeah, pass it 'round and 'round
Okay, we gon' satellite
What's been on your mind?
Yeah, we gon' work it out
Okay, we gon' exercise
Rock from side to side
Yeah, rock from side to side
The freaks come out at night
Dancin' with the stars
Yeah, we gon' take you high

Straight to the moon

All day, all night
All night, 'til we can't breathe, so high
Straight to the moon, straight to the moon

Past the sky, we take flight (take flight)
Change your point of view

We don't need nobody [?]
We gon' take this party to the moon, oh baby
Straight to the moon, straight to the moon

I say oh my, I'm way too late
I'm seein' stars and aliens, rocket ships
The atmosphere get ripped so we outta here
Look back on the world, I might drop a tear
[?] we faced shots
I'm bad boy for life, can't stop, won't stop
Shouts to Diddy, that Ciroc get me jiggy
And I got that boot that'll boost my kitty
So just leave your problems and act like Onyx
Rock your body just like no one's watchin'
Get the booty shakin' at this rave, we start earthquake
Great if the floor don't break, it's okay, so

Said, you just caught the vibe
Yeah, pass it 'round and 'round
Okay, we gon' satellite
What's been on your mind?
Yeah, we gon' work it out
Okay, we gon' exercise
Rock from side to side
Yeah, rock from side to side

The freaks come out at night
Dancin' with the stars
Yeah, we gon' take you high

Straight to the moon

All day, all night
All night, 'til we can't breathe, so high

Straight to the moon, straight to the moon

Past the sky, we take flight (take flight)
Change your point of view

We don't need nobody [?]
We gon' take this party to the moon, oh baby
Straight to the moon, straight to the moon
