

# Alone

Towkio

I channel  
I am a channel  
I am a channel  
So channel me  
Not alone, you are not alone  
Not alone, I said we are not alone  
Not alone, I said we are not alone  
Not alone, we are not alone  
No, no, said we are not alone  
We not alone, we are not alone  
No, no, no, we are not alone  
We are not alone

You are not alone, it's all a dream  
To the Earth we bound, so to sky we pray  
This is all we know, guess we never stay  
We are warriors so we not alone

God willin', make it to the top but it's no ceilings  
I seen a man kill a man, body lose feelin'  
You can run up, I don't care who's with 'em  
I get the gold plaque, you can get the blue ribbon  
Big hand hit him while he dance, make him lose rhythm  
Okay, mama told me nothin' but the people wasn't driven as me  
Guess I didn't learn, kiss the shit make it pop, artery  
Pull up in the car to a Carter III, I'm rhyming thuggin' like it's '08  
In the Bay mind, in the gold state, I should get a standin' ovation  
You should back up 'cause this shit hot  
You don't want that eye contact, I can tell you lying off bat  
Say it like you mean it, bill big as Kenan, tell 'em running, I need all that  
Catch 'em on sight, go to work [?] 'cause it's off-white  
Get 'em all fast, turn that soft work into hard cash  
Tony Montana, Tony Montana, I swear they leave me no choice  
But to get that silencer, so that bitch do not make no noise  
Bullets on mute, mute, mute, hit you like pew, pew, pew  
But ain't got shit to lose, so bitch you bet not move  
I swear it's fate, real life, real talk, this is my life  
Everything past this point just in the twilight  
I travel light-years to get lost in that dark night  
The type of mission you don't come back from  
I swear this that far sight, that tunnel vision, I chase that light  
That's what'll remind me if I ever go missing  
I'm in that Earth, Wind & Fire  
And I'm all in my element, chemical imbalance  
Started off drug peddling, drug peddling  
I hit some stains, got some things stolen  
But I guess that's karma 'cause I did the same to someone  
And this is all full circle, laws energetic  
And with these cause and effects, I swear it's all connected  
Man I swear it's infinite, from the stars down to our genetics  
In this pool full of nothingness, feel me in a new dimension  
In this world that is so synthetic, I'm just trying to find some truth in it

We are not alone, swear it's all a dream  
To the Earth we bound, so to sky we pray  
This is all we know, guess we here to stay

We are warriors, so we not alone
