

Down you wait too long
For you and the wave don't belong
If you stay, it's your fault, it's yours, come on
Minds get blown, those dots connect, lines get drawn
But something draws me to you even more
And that something draws me to you
Something draws me to you
That something's got a hold on me
Takin' me higher than this ecstasy
I'm thinkin', ooh you drive me crazy
Ooh you drive me maybe, the wheel to take control of me

Minds get lost, dots connect, lines get drawn
But something draws me to you even more
And that something draws me to you
Something draws me to you
That something's got a hold on me

I said take control, don't take too long, the sky might fall
We all go through our phases, habits won't fade, these things evolve
So take your medication
That's only temporary aid, you need your salvation
Up your doses when it's less effective

I'll be your prisoner take me, I'll surrender my faith

We can't escape attraction, the chain reaction make me your slave
Minds get lost, dots connect, lines get drawn
But something draws me to you even more
And that something draws me to you
Something draws me to you
That something's got a hold on me
Takin' me higher than this earth can see
I'm thinkin', "Ooh you drive me crazy
Ooh you drive me maybe, the wheel to take control of me

Take control of me
Take control of me
Take control of me
Take control of me

See I can call again, call it that, something is drawin' me closer
Yeah, I'm drownin' my head above water, there ain't no warnin'
I will follow that light at the end of the tunnel, I want it
If it glows out, I'm cool with the darkness
Do anything for it, I promise I need it, your beauty is beamin'
I'm trapped in your glory, I can't ignore it
This feeling I'm feelin', I'm an infant I'm reachin'
At this point I'm dependin', pray I'm goin' the distance

But I know something's got a hold on me
Takin' me higher than this extasy?
Ooh you drive me crazy
Ooh you drive me maybe
The wheel to take control of me
But I know something's got a hold on me
Takin' me higher than this extasy

Ooh you drive me crazy
Ooh you drive me maybe
The wheel to take control of me
