

Hate To Love

Towkio

Make me hate to love, make me hate to love
Make me hate to love, make me hate to love
Make me take the drugs, oh no, take the drugs, oh n-

Make me hate to love, make me hate to love
Swear I open up, but you ain't the one
But you left me here, why you bring me here?
Why the change of plans? We all selfish
I said, "I hate to love but I love the drugs
'Cause they make me numb, help me function"
And this all stemmin' from things, you set it off
[?] Guess I'm better off

I feel like I need you
The way you talk, the way you move
All the things you do, all the things you do
They make me feel crazy, I question myself
Don't want nothing else but all the things you do
You make it hard, you make it hard, I make it easy

Hate to love, hate to love, hate to love, hate to love
Hate to love, hate to love, hate to love, hate to love (you make it hard)
Hate to love, hate to love, hate to love, hate to love (I make it easy)
Hate to love, hate to love, hate to love, hate to love (you make it hard, I make it easy)

I said, "hate to love", you can't blame me
For the fact that you made me a monster
Told you that you could have my baby
At this point, I'ma take back that offer, unh
Always argue, get you started, it
Drive me crazy, get my car keys, aye
Ain't no talkin', no, I try to walk away
Put hands in my face, bitch get off me
No, I don't want it, you ungrateful
What you thinkin'? All them payments, yea
All them flights home, you brought that baggage
I still accept you, you turn me savage
I'd like to thank you, left me heartless
Now I lean, duck, dodge, my guard up
I can't afford it, I fuckin' skate
Now Mr. Heartbreak like 808

I feel like I need you
The way you talk, the way you move
All the things you do, all the things you do
They make me feel crazy, I question myself
Don't want nothing else but all the things you do
You make it hard, you make it hard, I make it easy

Hate to love, hate to love, hate to love, hate to love
Hate to love, hate to love, hate to love, hate to love (you make it hard)
Hate to love, hate to love, hate to love, hate to love (I make it easy)
Hate to love, hate to love, hate to love, hate to love (you make it hard, I make it easy)
Hate to love, hate to love, hate to love, hate to love
Hate to love, hate to love, hate to love, hate to love (you make it hard)
