Swim

Towkio

New chapter, new page
Made some money off the first mixtape
Now I'm livin' good, chillin' by a beach that's not a lake
Said the Earth controls the Moon, so we control the waves
So let me say that shit again, hope they listen to what I'm sayin'
While that blood flow through you, please don't live your life in vai
n
And if I get better with age, but all my visions ancient
Then we could freeze time to see these pictures that we painted
They release a little bit of dopamine and inspiration
Damn, what a sensation, keep it Ben Franklin, you can get it too
Life been like a dream lately, that's 'cause I'm livin' lucid
And you control your world, swear I'm livin' proof
And I remember In Living Color on in the livin' room
Damn, I miss my mother, now we at them parties you can't get into
Makin' bitches kiss each other, damn, what you finna do?
Look up in the stars and make your problems seem minuscule, like...

What makes us love? What makes us dream?
I found the light, now it's all I see
So we ride that wave (that wave), when that tide comes in
And that water deep, so be prepared to swim
Be prepared to swim, so be prepared to swim
So be prepared to swim, the mind's receptive
You can catch a signal, 'cause waves ripple if you pay attention

See this that deep water, tread lightly
Got good karma and some clean chakras, a clear psyche
I can see everything comin' to me like, "Oh my goodness"
I see world tours, fast cars and big booties
But I'm just focused on my contribution, my contribution
And if I die tonight, just promise me that you'll listen to it
I put my heart and now my soul in it, this shit weighted
And if I try to live forever, will someone save me?
Look, I'm a hustler by trade, an artist by night and dreamer by day
But these days I can't tell the difference soon as I wake
And I say that because, yeah, I know that somethin' awaits
And the rest of the gang straight, look how far we done came

What makes us love? What makes us dream?
I found the light, now it's all I see
So we ride that wave when that tide comes in
And that water deep, so be prepared to swim
Be prepared to swim, so be prepared to swim
So be prepared to swim, so be prepared to swim
So be to, so be, so
