

Tear Drop

Towkio

I wonder when it will stop
Promise I get so high
Have you ever seen God?
Have you ever seen God?
Wonder when it will stop
I take another pill until I feel hot
I up the dose, my tolerance on Woodstock
I wonder when it will stop
The cops, yeah they kill kids
Then act unfamiliar
Then cover up the case like it's makeup concealer
Damn, why that hate so built up?
The truth is in your face, no filter
If we didn't have this hip hop
How would we all get by?
Would we just move them Ziplocs?
Our only get rich plot
'Fore all of them try to get mine
Until the day I flatline
My tía play that lottery I pray she win that jackpot
I wonder when it will stop
Someone call Dr. Philip
Tell 'em all those prescription bottles need to get filled up
Turning them into zombies in the street, no "Thriller"
Suppression ain't the cure, something that they ain't consider

I wonder when it will stop
Wonder when it will stop
Wonder if it will stop
I don't think it will stop
World gone mad so for that I let a tear drop
World gone mad so for that I let a tear drop

I wonder when it will stop
One day I got so high
To the point I seen God
Fill my eyes with tear drops
I'm sitting on a gold mine
I learnt about the re-rock
We boom until it's all gone and then we go and restock
I wonder if it will stop
They tell us that that door's locked
So we gon' kick it down, hit them stains like Chlorox
We out here and we on that
So picture it like Kodak
But no election, shorties out here asking where that pole at
They need that for protection
We pay for education
So who are you in debt with?
That money, if you make it
You probably have to hold back
So really you ain't make shit
So tell me what's the problem if we ever find time
I said I'm worth a whole life so I guess I made a killing
And if I made enough then I could pass on to my children
She tell me who's the villain
Then why you got them chains on?

Same reason that I'm here tryna write the same song

I wonder when it will stop
Wonder when it will stop
Wonder if it will stop
I don't think it will stop
World gone mad so for that I let a tear drop
World gone mad so for that I let a tear drop

For that I let these tears drop
Swear it's been a long time
Let me let these tears dry
Now I'mma make this song cry
Lay it all on the line
Had to watch some friends pass
Man, that shit fuck me up
Turn me into Mad Max
And I got some homies out here tweaking off that Xanax
Amongst other products we import, sweat a jab like a grab bag
Damn, that shit fucking with my conscience
But that's the price you pay when just tryna see that profit
I said wonder when it will stop
I swear that I'm a good guy
But to my girl I still lie
Until we say our goodbyes
So tell me who's the victim
Don't tell me 'bout statistics
They turn us to some numbers, then just add them to the system
And don't tell me that we stuck here
Don't tell me it's just physics
Don't tell me 'bout them problems
Just find a way to fix it
We doomed from the beginning
I know that makes us all scared
Really at this point I know that we do not belong here

I wonder when it will stop
Wonder when it will stop
Wonder if it will stop
I don't think it will stop
World gone mad so for that I let a tear drop
World gone mad so for that I let a tear drop
