

# Ties

Towkio

I'm doin' it all for the land  
Ask if I'll stop I say never  
I made me a mil now I'm focused as ever  
When you hit this level just know they gotta hate  
That mean you got something special  
I hit some heights that they couldn't fathom  
A mogul I'm more than a rapper  
It feel like the day they graduate  
Throwin that cap I just let em  
I got that Ricky on boosting my leverage  
93 boyz hit the stores by December  
In every endeavor I'm goin' for necks  
I'm from the Chi all I know is finesse  
They diggin' for gold? Bet I'm sellin the shovel  
They love to hate but they can't knock the hustle, they can't knock the hustle

Big vibes what I provide folk  
Get big bands yea that's what I'm on  
You know I do whatever I want  
I fly private, I got ties  
Woahhhh woahhhh woahhhh  
Just to feel alive  
Just to feel alive

I got my gang with me and know they gonna slide ever I say I need  
And nothing's guaranteed on that rocket to Mars tell 'em save me a seat

And nothing's guaranteed on that rocket to Mars tell 'em save me a seat

Woahhhh woahhhh woahhhh  
Just to feel alive

I spent my last fell back, then fell in my bag  
Then blessings fell in my lap, I had to remember who I am  
A trap boy 19 on plane with 25 bands  
Just run this shit up again won't need no label finance  
So watch me nose dive with close eyes to where there's no light  
And what we gon find a gold mine the odds on your side  
And if we gon die live more life, at least we gon try  
It'd be a long fight have no freight your angels close by

Big vibes what I provide folk  
Get big bands yea that's what I'm on  
You know I do whatever I want  
I fly private, I got ties  
Woahhhh woahhhh woahhhh  
Just to feel alive  
Just to feel alive

I got my gang with me and know they gonna slide ever I say I need  
And nothing's guaranteed on that rocket to Mars tell 'em save me a seat

And nothing's guaranteed on that rocket to Mars tell 'em save me a seat

Woahhhh woahhhh woahhhh  
Just to feel alive
