

Forever, for Always, for Certain

Townes Van Zandt

Forever ain't easy to come by
For always ain't never to sure
For certain is less than you hope for
For someone it's hard to endure

Forsaken must sometimes befall us
For sorrow sometimes will call
Four seasons go around on a pinwheel
Tomorrow ain't no place at all

The first time that I come by lovin'
Forever was all on my mind
And I never got used to the hurtin'
The searchin' for some love in kind

And it seems like I'm still chasin' rainbows

It seems like I'm still on the run
Forever don't mean much in passing
Forgotten don't mean that it's done

Forever, for always, for certain
For someone forsaken for sure
For any old plan you got workin'
For any old pain you can cure
Forever, for always, for certain
For someone forsaken for sure
For any old time that you're hurtin'
For all of the love in the world
