

# Alright

Tow'rs

If I'm not alright  
Will we be alright?  
I don't wanna be right  
I just want you

I don't pretend to know the thoughts in your head  
It's easy when your eyes are always speaking  
Why don't we stay in each other's arms  
It's hard to wield a knife when my hand's inside yours

If I'm not alright  
Will we be alright?  
I don't wanna be right  
I just want you  
If I'm not alright  
Will we be alright?  
I don't wanna be right  
I just want you

My tongue is burned by the fire I yearned  
If good can turn bad then how do we discern  
The face of pride is hard to forget  
When it's made of mirrors and I am praising it

If I'm not alright  
Will we be alright?  
I don't wanna be right  
I just want you  
If I'm not alright  
Will we be alright?  
I don't wanna be right  
I just want you

You  
You  
You, oh  
You

If I'm not alright  
Will we be alright?  
I don't wanna be right  
I just want you
