

The Disappointment

Toxic Narcotic

find out what it is
find out what it isn't
find out you can't leave your prison
wake up from your nap
Feel my reality slap

you find out where you've been
But you can't believe - find out what it isn't
you find out where you been
But you can't believe - find out what it isn't

Why can't you just see
Open your fucking eyes
Why do you have to hear it from me?
It's right in your face it's right before you
Why can't you just see?
Why are you fucking blind?
Why do you have to hear it?
That's right decide or feel the weight of mine!
Hit parade.
