

Psyop

Toxik

Picture a rabbit suit, a vision that haunts you
Whispers a word in your ear
Trigger the alter, releases the monster
Jekyll, your Hyde has appeared

Stand down, wait for the sound
Stand down, target is found

Slow killer profiling, cold eyes, unsmiling
Lying in wait for the crowd
Programmed assassin, Manchurian fashion
Vanishes without a sound

Under God, one nation indivisible
Psychological intrusion, psyop, train you
For honor and duty you'll do as you're told to
Guided by fear, everything's so clear

Ecstasy, LSD, torture you, tell me
Funded by the CIA
Manipulation through total deception
Is The American Way

Under God, one nation indivisible
Psychological intrusion, psyop, train you
For honor and duty you'll do as you're told to
Guided by fear, everything's so clear

Do as you're told
Do as you're told
Do as you're told
Do as you're told
